

I-275 Corridor Improvements in Wayne County

What Is Being Done?

The Michigan Department of Transportation (MDOT) is investing approximately \$11 million in Wayne and Monroe counties to rehabilitate 16 bridges along the I-275 corridor between Will Carleton Road and Huron River Drive, and repair 10 miles of pavement. The repairs will occur in Ash Township, Huron Township and Romulus. These improvements are expected to begin in March and be completed in July.

How Will I-275 Traffic Be Affected?

During construction, single-lane and double-lane closures will be required in each direction on I-275 throughout the duration of the project.

How Will Local Traffic Be Affected?

- Will Carleton Road, Willow Road, Pennsylvania Road and Huron River Drive over I-275 will require full closures for construction. Traffic will be detoured.
- Sibley Road, Eureka Road, Northline Road, South Huron River Drive and South Huron Road will require lane restrictions. West Huron River Drive will have directional full closures during construction with a posted detour.
- Will Carleton Road and South Huron Road will not have simultaneous restrictions.
- Sibley Road, Eureka Road and Pennsylvania Road restrictions will occur independently.
- Work on Northline Road and South Huron River Drive will not occur simultaneously.

Bike path accessibility:

- The bike path under South Huron River Drive will be closed for 100 during the South Huron River Drive work.
- The Metro Park bike path under I-275 will be maintained at all times.
